July 2009

Ashley, Zach, and Ava

Dear Friends and Family,

We would like to update you on what has been happening in our lives during my first month as Gulphaven's intern. I'm still trying to transition from a typical hourly work week to a more self-directed schedule. Under Pastor Nelson's leadership, I'm discovering new things about ministry with each passing day and am being challenged to be a stronger and more intrepid leader. I'm excited about what God is doing in our lives and what He is doing and going to do at Gulphaven.

During my time as intern, I have been learning the many details of ministry and planning that take place behind the scenes of daily church business. Also, I have been visiting with people in their homes and in hospitals—talking and praying with them. This has been extremely rewarding for me because it has allowed me to connect on a more personal level and build stronger relationships with many people in the community.

I am in the process of becoming a mentor to two young men in our church. They are both good kids, they just have the usual teenage struggles to deal with right now. I am happy to become a part of their lives and build closer relationships with them, and I'm praying that God will use this experience to positively impact their lives.

Ashley and I are grateful for the prayers and support that you are blessing us with. We thank God daily for your partnership in Relevant Ministry. We are getting closer to the financial goal that we set and are currently at 81% of that goal. We hope that you will prayerfully consider partnering with us in financial support as we continue to reach our goal as well as lead and serve at Gulphaven.

Above all, we ask that you continue partnering with us in prayer—seeking wisdom, courage and faith for both Ashley and I. Ashley's pregnancy is going well and we found out that we are having another little girl. Please pray for a healthy baby. We will continue to update you on what God is doing in our lives throughout this year.

Sincerely,

Zach, Ashley, and Ava
